

“CHINA REACH” Workshop Brussels 2010

— *Preparing for New Chemical Notification under China REACH*

November 3, 2010

The International Auditorium, Brussels

**Early Bird
Deadline:
20.10.2010**

Why attend this event?

With the approaching introduction of the new regulation concerning the management of new chemical substances in China, manufacturers and exporters of chemical products to China face ongoing challenges in order to comply with the new legislation. China REACH will affect the activities of all chemical companies who manage new chemicals in China once it comes into force on the 15th October 2010.

The China REACH - "Measures on the Environmental Management of New Chemical Substances" was published by the Chinese Ministry of Environmental Protection (MEP) and increases the burden of data and risk management obligations on industry.

Registrations are submitted by Chinese-registered companies or agents to the MEP after evaluation

by the Chemical Registration Centre of the MEP (CRC-MEP).

The China REACH Workshop will serve as the platform for debating the practical issues arising from China REACH and will offer suggestions on preparing for compliance. The workshop will enable you to:

- **Get** the unique opportunity of direct contact with the officer from the Chemical Registration Centre CRC-MEP
- **Obtain** first-hand information and the latest updates concerning China REACH and its implementation and enforcement
- **Benefit** from case studies by experienced service providers and industrial representatives
- **Learn** the most effective compliance strategies

Who should attend?

Regulatory affairs professionals
Safety, Health and Environmental managers
Chemical business operating on the international stage
Supply chain managers
Legal professionals

Workshop Highlights

Important provisions which may impact you most under China REACH
The implementation & enforcement of China REACH
Detailed case studies of effective compliance strategies
Management and organization of China REACH compliance support

Honored Guest

MEP's Chemical Registration Center (CRC-MEP)

The CRC is the Chemical Registration Centre of the MEP to which all application information, notification dossiers and post-registration dossiers of new chemicals are submitted. It is involved with the implementation of the new 'China REACH' provisions and ensures the notification information conforms to the requirements of the measures before submission to the evaluation committee of the MEP. It's work also includes management of the import and export of toxic chemicals in addition to improving the overall environmental management of chemicals in China.

Hosted by

REACH24H Group

As three companies: Hangzhou RUIO Technology Co., Ltd (RUIO) in China, REACH Compliance Services Limited (RCS) in Ireland and REACH North America Services Inc (RNAS) in Canada, the REACH24H Group provides round-the-clock chemical compliance services for clients all over the world. It has a large technical team with extensive experience in complying with international Technical Barriers to Trade (TBT) and has helped over 4000 enterprises successfully gain access to the European, American and Chinese markets.
